container - Feature #5554

Fedora Container

2020-02-05 12:30 PM - Albert van Eck

Status:	Closed	**Start date:**	2020-02-05
Priority:	Normal	**Due date:**	
Assignee:	Albert van Eck	**% Done:**	100%
Category:		**Estimated time:**	2.00 hours
Target version:		**Spent time:**	0.00 hour

Description

Removing the Cuda NCCL libraries and adding tcsh to the container.

Removing the following:
libnccl
libnccl-devel
libnccl-static
libcudnn7-devel

Adding:
tcsh

Also added new method for dnf install:
dnf -y groupinstall mate-desktop mate-applications
